

CGS ORIS 4.0

Explore the next level
of color management.

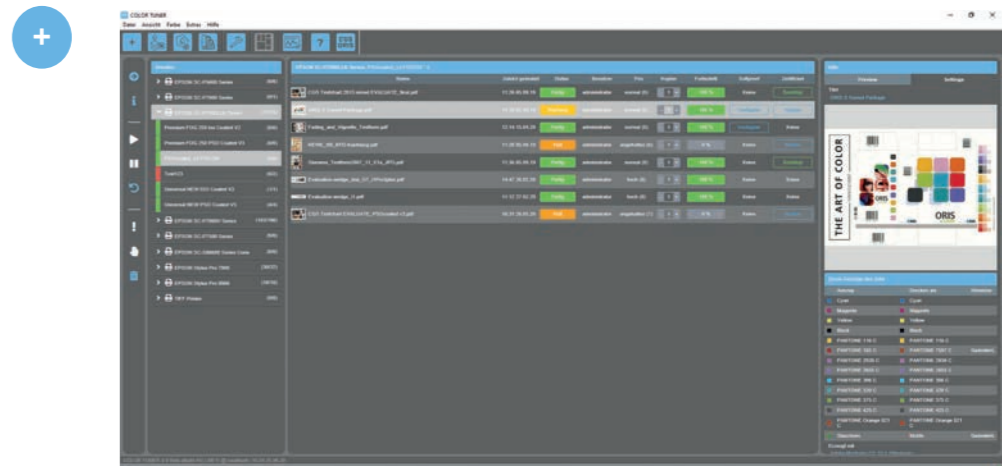

What is new?

- 1 New flat design
Well-arranged & clear
Additional icons
- 2 Brand-new element
Full control of all files
in one place
Customize interface here
- 3 Clear & quick overview
Colored status info
Check all jobs at a glance
- 4 Quick overview of all
important details about
printers, queue, jobs
Separation preview of colors
- + Switch to Dark Mode!

The screenshot shows the main interface of the COLOR TUNER software. At the top left, a 'TOOLBAR' (1) contains various icons for file operations and settings. Below it is the 'CONTROL BAR' (2) which lists printer models and their job counts. The central 'JOB LIST' (3) displays a table of print jobs with columns for Name, Date, Status, User, Priority, Copies, Progress, Softproof, and Certified. The right side features an 'INFO AREA' (4) with a preview of a color chart and a table of color separations.

- 5 Optimized simulation of overprinting spot colors
using spectral data
- 6 Creation of custom test charts
for every device & size
- 7 Adaption of different paper whites
to existing profiles
- + Scheduled printing,
support of new printers &
measurement devices
+++

Why do I need to update?

- √ New features & functions like spectral overprinting
 - √ Easy & intuitive job handling
 - √ Quick overview & optimized control
 - √ Streamlined workflow
 - √ Customizable interface
 - √ State-of-the-art graphic design
- √ New printers and measurement device support
